

2021 HOROSCOPES FOR PARENTS

GEMINI

May 21 - June 20

For adaptive Gemini, 2021 will see Saturn and Jupiter redesigning your ninth house of wisdom and perspective. Your belief systems will be challenged, and you'll find yourself doing all the things you swore you'd never do back when were a perfect parent...you know, before you actually had children. "Yes, you can have another donut, just let me sleep past six. I left the iPad out for you."
