

2021 HOROSCOPES FOR PARENTS

LIBRA

September 23 - October 22

For Libra, the coming year has Jupiter and Saturn in your Aquarius-ruled confidence zone. Fire up those fingertips, keyboard warrior. You'll feel great about the advice you give on the Facebook post from a new mom asking about

sleep training...your kid turned out fine, after all. But, beware. That confidence can be shattered when you're personally attacked for ruining your baby's ability to love. It's ok, Libra. They'll screw up their kids in a different way.
