

2021 HOROSCOPES FOR PARENTS

Pisces

February 19 - March 20

For Pisces, Jupiter enters your sign in summer, and you'll feel a surge of creativity. It's a great time to roll up those sleeves and dive into art projects with your kids. You know, the ones that take 20 minutes to set up, provide five minutes of entertainment, and take a half hour to put away. Jupiter and Saturn move through your Aquarius-ruled completion zone in 2021, so maybe you'll be able to completely clean up the glitter.
