

# 5 CARD GAMES TO PRACTICE MATH WITH PRESCHOOLERS

Card games are a fantastic way to practice math skills with children. Plus, games work social emotional skills!

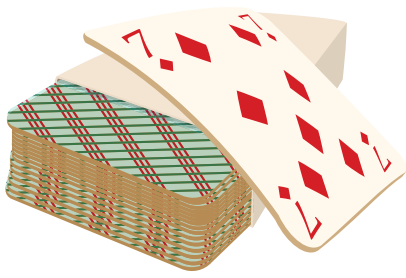

## GO FISH

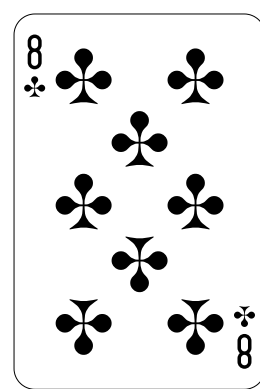

Playing Go Fish works memory, matching, sorting, and counting, when you tally up pairs at the end of the game.

## WAR

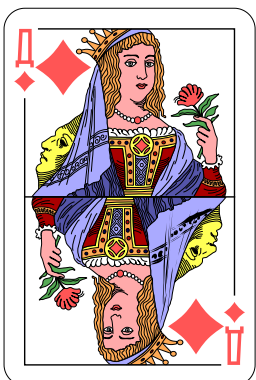

War works number recognition and greater than/less than.

## CRAZY 8s

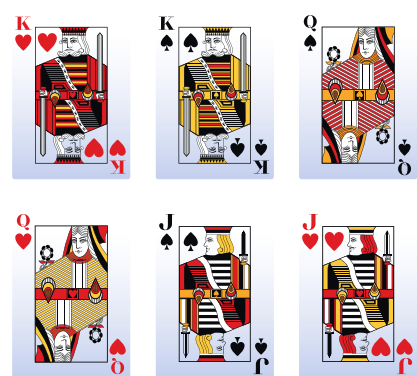

Similar to UNO, Crazy 8s is a great way to practice matching.

## OLD MAID

Old Maid is another great matching game for preschoolers, plus there's a bit of strategy involved!

## MEMORY

Memory obviously works memory! It's also great for number recognition and counting.
